

**PHASE I & II REPORT
CHRISTINA RIVER BASIN
WATER QUALITY MANAGEMENT STRATEGY**

May 1998

Prepared by:

**Water Resources Agency for New Castle County
Newark, Delaware**

**Chester County Conservation District
West Chester, Pennsylvania**

**Chester County Water Resources Authority
West Chester, Pennsylvania**

On behalf of the Christina Basin Water Quality Management Committee

MEMORANDUM

TO: Christina Basin Water Quality Management Committee

FROM: Jerry Kauffman
Phone: 302-831-4925
Fax: 302-831-4934
e-mail: jerryk@udel.edu

DATE: April 2, 1998

SUBJECT: Draft Phase I and II Report

Enclosed for your review is the final draft Phase I and II Report for the Christina Basin Water Quality Management Strategy. Please mail, fax, phone, or e-mail your comments to me by Friday April 24, 1998. After receiving the comments, we will revise and distribute the final report to you one week prior to our May 21, 1998 Committee Meeting which will be held at the WRA offices at the University of Delaware. We hope to approve the final report at our May Committee Meeting. Please note the final report will include the following:

1. Cross-reference table of contents, figures, tables, maps, etc. Editing grammar, spelling, and format for consistency.
2. Color report cover, maps, and figures.
3. Complete maps and data base tables for Maps 1 (Geology), 2 (Soils), 3 (Outfalls/Intakes), 5 (Land Use), 6 (Zoning), 9 (Hazardous Waste), and 10 (BMP's). The final maps will be retitled "Christina Basin Water Quality Management Strategy" to reflect emphasis in point and nonpoint sources. Complete the population density table.

Thank you for your support involving clean water in the Christina Basin.

FINAL PHASE I & II REPORT

CHRISTINA RIVER BASIN

WATER QUALITY MANAGEMENT STRATEGY

"A Christina Clean Water Strategy"

May 21, 1998

Prepared by:

Dan Greig - Chester County Conservation District
West Chester, Pennsylvania

Janet Bowers - Chester County Water Resources Authority
West Chester, Pennsylvania

Gerald Kauffman - Water Resources Agency for New Castle County
Newark, Delaware

On behalf of the Christina Basin Water Quality Management Committee:

- Brandywine Valley Association (BVA)/ Red Clay Valley Association (RCVA)
- Chester County Conservation District (CCCD)
- Chester County Health Department (CCHD)
- Chester County Planning Commission (CCPC)
- Chester County Water Resources Authority (CCWRA)
- Delaware Department of Natural Resources and Environmental Control (DNREC)
- Delaware Nature Society (DNS)
- Delaware River Basin Commission (DRBC)
- New Castle Conservation District (NCCD)
- Pennsylvania Department of Environmental Protection (PADEP)
- U. S. Environmental Protection Agency, Region III (USEPA)
- U. S. Geological Survey (USGS)
- U. S. Natural Resources Conservation Service (USDA-NRCS)
- Water Resources Agency for New Castle County (WRANCC)

**PHASE I & II REPORT
CHRISTINA RIVER BASIN WATER QUALITY MANAGEMENT STRATEGY
TABLE OF CONTENTS**

<u>Chapter</u>	<u>Page</u>
TABLE OF CONTENTS	i
LIST OF FIGURES	iii
LIST OF TABLES	iv
LIST OF MAPS	v
LIST OF APPENDICES	vi
ACKNOWLEDGMENTS	vii
1. PHASE I & II STRATEGY	
1.1 Introduction	1-1
1.2 Designated Stream Uses	1-2
1.3 Water Quality Problems	1-4
1.4 Priority Watershed Status	1-4
1.5 Inter-State Water Quality Strategy	1-4
1.6 TMDL Approach	1-5
1.7 Compatibility	1-6
1.8 Mission Statement/Objectives	1-7
1.9 5-year Water Quality Management Strategy	1-8
1.10 Phase I & II Scope of	1-10
1.11 Funding...	1-15
2. WATERSHED INVENTORY 2-1	
2.1 GIS Approach	2-1
2.2 Base Map	2-3
2.3 Geology ..	2-9
2.4 Soils	2-12
2.5 Outfalls/Intakes	2-15
2.6 Topography	2-20
2.7 Land Use.	2-20
2.8 Zoning	2-28
2.9 Water Resource Areas	2-28
2.10 Parks/Open Space/Protected Lands	2-35
2.11 Potential Contaminant Sources	2-38
2.12 Existing Best Management Practices	2-39
3. WATER QUALITY ASSESSMENT3-1	
3.1 Existing Data	3-1
3.2 Delaware Water Quality	3-3
3.3 Pennsylvania Water Quality	3-4
3.4 Stormwater Ordinance Inventory	3-12

1-1	Location Map	1-3
2-1	Land Use Summarized for Each State in the Christina Basin	2-24
3-1	Stormwater Ordinance Inventory Results	3-21
4-1	Total Suspended Sediment Loads by Subwatershed	4-6
4-2	Annual Total Suspended Sediment Loads in the Christina Basin	4-7
4-3	Percent Impervious Cover by Subwatershed	4-15
4-4	Percent Agricultural Area by Subwatershed	4-19
4-5	Percent Wooded Area by Subwatershed	4-22
4-6	Watershed Indicators	
6-1	Storm Drain Stenciling Project	6-10

LIST OF TABLES

<u>Table</u>		<u>Page</u>
2-1	GIS Watershed Inventory Data Sources	2-2
2-2	Subwatersheds	2-4
2-3	State, County, and Local Governments	2-3
2-4	Land Use by County	2-4
2-5	Geologic Formations	2-11
2-6	Outfalls, Intakes, and Monitoring Stations	2-19
2-7	Land Use Summary	2-25
2-8	Land Use by Subwatershed	2-26
2-9	Percent of Land Use by Subwatershed	2-27
2-10	Water Resource Protection Area (WRPA) Criteria in New Castle County	2-34
2-11	Population Density	2-44
3-1	Cited Surface Water Uses	3-9
3-2	Water Quality Summary for Delaware Streams	3-10
3-3	Water Quality Summary for Pennsylvania Streams	3-11
3-4	Water Quality Assessment	3-12
3-5	Stormwater Ordinance Inventory for Pennsylvania	3-18
3-6	Stormwater Ordinance Inventory for Delaware and Maryland	3-20
4-1	Total Suspended Sediment (TSS) Pollutant Load Variables	4-3
4-2	Total Suspended Sediment (TSS) Loads	4-4
4-2a	Verification of TSS Loads	4-8
4-3	Annual Suspended Sediment Loads	4-13
4-4	Estimated Percent Impervious Cover of Land Use Categories	4-14
4-5	Percent Impervious Cover by Subwatershed	4-26
4-6	Watershed Pollution Potential	4-30
4-7	Priority Watershed Strategy	4-31
6-1	Performance Evaluation for Newark Demonstration Bioengineering Project	6-11
7-1	Watershed Priority Summary	7-16
7-2	Recommendations for the Christina Basin Water Quality Management Strategy	7-20
7-3	Watershed Management Strategies to be Considered	7-25

LIST OF MAPS

LIST OF APPENDICES

APPENDIX

- A Fecal Coliform Bacteria Historic Trends for Brandywine Creek Basin (1981-1996)
- B Biological Diversity Indices and Historic Trends (1971 through 1996)
- C Non-Point Source Water - Quality - Monitoring Plan for the Christina River Basin
- D Map 1 - Geology
Map 2 - Soils
- E Map 3 - Stream Gages
Map 3 - Observation Wells
Map 3 - Precipitation Gages
Map 3 - Public Surface Water Withdrawals
Map 3 - Community Public Water Supply Wells
Map 3 - NPDES Discharges
Map 3 - Stream Water Quality Monitoring Stations
Map 3 - Industrial, Recreational, and Irrigation Intakes
Map 3 - Chester County Health Department Sampling Stations
Map 3 - Spray Irrigation Facilities
Map 3 - Non Point Source Stormwater Quality Sampling Stations
Map 3 - Combined Sewer Overflows
- F Map 5 - Land Use Summary
- G Map 9 - Hazardous Waste, Superfund, and Landfill Sites
- H Map 10 - Existing Best Management Practices
- I Map 13 - Total Suspended Sediment (TSS) Loads
Map 14 - Percent Impervious Area for Subwatersheds

ACKNOWLEDGEMENTS

The authors wish to thank all of the members of the Christina Basin Water Quality Management Committee for their assistance in assembling this report. Staff from the Delaware River Basin Commission including David Pollison and Paul Scally provided a mediator role in bringing the States of Delaware and Pennsylvania together to resolve common water quality problems. Veronica Kasi and Russell Wagner of the Pennsylvania Department of Environmental Protection and Nancy Goggin and Jenny McDermott of the Delaware Department of Natural Resources and Environmental Control deserve credit for their diligence in obtaining funding for the first phases of the Christina Basin Strategy. Mr. Bernard Dworsky provided resources, budget, and administrative commitments for Water Resources Agency for New Castle County staff on the project. Key members of the Technical Group responsible for the watershed inventory, water quality assessment and stormwater monitoring tasks include Lisa Senior and Kent Crawford of the U.S. Geological Survey; Wayne Clapp and Robert Ihlein of the Chester County Planning Commission; Brad Smith, Hassan Mirsajadi, and Rick Greene from the Delaware DNREC; Kevin Magerr, Sarah Blackman, and Tom Henry from the U.S. Environmental Protection Agency; Charles Rehm, Rob Ryan, Nancy Crickman, Bill Goman, and Gary Price from the Pennsylvania DEP; Jim Stingel and Debi Weiker from the New Castle Conservation District; and Christy Green, Rose Marie Alicea, Suzanna Donohue, Annemarie Cinaglia, Katie Miller, Tammy Nguyen, Erin Guire, Deborah Mills, Nicole Minni, Vern Svatos and Martin Wollaston of the Water Resources Agency for New Castle County. Janet Bowers of the Chester County Water Resources Authority provided vigilant editing of the document. Bob Struble and Erin Doyle of the Brandywine Valley Association led the public education and outreach programs. And lastly, the authors would like to thank the decision-makers responsible for identifying the Christina River Basin as a priority and for providing the time and resources for staff to complete Phase I and II in a timely manner. The Policy Committee for this effort includes Irene Brooks (DRBC and PADEP), Gerard Esposito (DNREC), Dr. Hugh Archer (Pennsylvania DEP), Gerald Hansler (DRBC), and Dr. Al Morris (USEPA). Through the efforts of the members of the Christina Basin Water Quality Management Committee, we learned that watershed management efforts require cooperative contributions from many people and jurisdictions.
