

SEARCHABLE DATABASE OF THE WATER-RELATED FACULTY AND STAFF

UNIVERSITY OF DELAWARE

Compiled by Gerald Kauffman, University of Delaware, College of Human Services, Education and Public Policy, Institute for Public Administration, Water Resources Agency in collaboration with Dr. Tom Sims and Cynthia Greene, University of Delaware, College of Agriculture and Natural Resources, Water Resources Center and Department of Plant and Soil Sciences. For more information please contact Mr. Kauffman (302-831-4929, jerryk@udel.edu) or Dr. Sims (831-1389, jtsims@udel.edu).

November 13, 2001

The University of Delaware is fortunate to have a critical mass of faculty and staff with education and research interests in water resources. The following data base contains information regarding the water resources - related courses and research programs offered at the University of Delaware. One of the purposes of the database could be to assist undergraduate and graduate students with selecting relevant water resources courses across multidisciplinary college and departmental boundaries. Also, UD faculty and staff may find the database useful in searching for partners in collaborative water resources teaching and research efforts.

The water resources-related faculty and staff at the University of Delaware are based in the following colleges and departments.

College of Agriculture and Natural Resources

- College of Plant and Soil Sciences and Water Resources Center
- Department of Bioresources Engineering
- Department of Food and Resource Economics

College of Arts and Sciences

- Department of Geography
- Department of Geology
- English Department
- Political Science Department

College of Engineering

- Department of Chemical Engineering
- Department of Civil and Environmental Engineering

College of Human Services, education, and Public policy

- Center for Energy and Environmental Policy
- Department of Consumer Studies
- Institute for Public Administration
- Math and Science Education Research Center
- School of Urban Affairs and Public Policy

Delaware Geological Survey

Graduate College of Marine Studies

UNIVERSITY OF DELAWARE WATER RELATED FACULTY AND STAFF:

Name: Paul T. Imhoff
Title: Assistant Professor
College: Engineering
Department: Department of Civil and Environmental Engineering
Address: 356A DuPont Hall
Phone: 831-0541
Fax: 831-3640
Email: imhoff@udel.edu
Website: www.ce.udel.edu/~imhoff
Courses and semester: CIEG 337 Environmental Engineering Laboratory (Fall)
CIEG 461 Senior Design (Fall/Spring)
CIEG 467/667 Groundwater Flow/ Contaminant Transport (Spring)
Research Interests: Transport of fluids and contaminants in multiphase systems, including groundwater transport, stormwater infiltration, and movement of leachate through landfills.
Mass transfer processes in subsurface environments
Mathematical modeling

Name: Dr. Dan Leathers
Title: Professor in the Department of Geography
College: Arts and Science
Department: Geography
Address: Pearson Hall Room 216C, Newark, DE 19716
Phone: (302) 831-8764
Fax: (302) 831-6654
Email: leathers@udel.edu

Courses and semester: CIEG 441 Hydrology
CIEG 667 Water Quality Modeling
Research Interests: Water resources, groundwater, saltwater intrusion

Name: Dr. D. L. Sparks
Title: Distinguished Professor of Environmental Soil Chemistry
College: Agriculture and Natural Resources
Department: Plant and Soil Science
Address: 153 Townsend Hall, Newark, DE
Phone: 831-2532
Fax: 831-0605
Email: dlsparks@udel.edu
Website: ag.udel.edu/soilchem
Courses: PLSC 608 Environmental Soil Chemistry (spring-even yrs)
PLSC 810 Kinetics and Surface Chemistry of Soils (spring-odd yrs)
Research: Kinetics and Mechanisms of Soil Chemical Reactions

Name: Dr. James E. Pizzuto
Title: Professor of Geology
College: Arts and Sciences
Department: Geology
Address: 214 Penny Hall, Newark, DE 19716
Phone: 302-831-2710

Courses: GEOG 372 Geographic Information Systems (Fall)
GEOL 428/628 Hydrogeology (Spring)
Research: Regional hydrogeology (field studies and ground-water modeling),
Geographic information systems for spatial analysis,
Surface and borehole geophysics (focus on shallow-depth geology and hydrogeology),
Sedimentary-basin modeling (burial history, multiphase-fluid and heat flow),
Water resources.

Name: Dr. Tom Sims
Title: Professor of Soil and Environmental Chemistry
Director, Delaware Water Resources Center (DWRC)
College: Agriculture and Natural Resources
